## **Our banking details:**

First National Bank (FNB)

Gold Business Account

Account Number: 62810843658

Branch Code: 250655

## **INTRODUCTION**

Our company was established in March 2018 with the objective to create work for myself and a small portion of the unemployed population of the country. I was privileged to work on big development projects in Pretoria and as the units that were built, were only rented out I saw the need in maintenance on these projects.

## **OUR VISION**

In 1998 I started in the construction industry as a site foreman. Later progressed to site manager/project manager and completed more than 10 projects in the Johannesburg and Pretoria areas. During the years I learned the skills of building and am proud to say that I successfully handed over more than 10 projects over the past 23 years.

When I started the company I asked my sons to join, to assist on the maintenance and electrical side. I overlooked the building side and finishes on all work done. Our goal is to grow the business to serve the people in our community, not only to secure an income for ourselves, but also to help more people with employment.

## **OUR MISSION**

We aim to build a long-term relationship with our clients. Our foundations are built through honesty, integrity and trust. We build, repair and upgrade your investment to preserve its value.

Maintaining your home is essential and working with you to assist you in making your dreams into reality is our priority. We provide our customers with competitive prices complimented by our commitment to deliver at the shortest possible time. The finished projects we proudly hand over are testimony to our excellence.

## **SERVICE DELIVERY**

We have adopted fast and efficient service delivery as strategy to attract and retain our clients.

We monitor all our work and processes to reflect service of the highest standard.

We are firmly committed to quality as we know that the future of our company depends on the satisfaction of our customers. It is therefore our highest priority to ensure that all aspects of quality control are addressed throughout our organisation.
